

S.O.S.™ Head

J JOETOOLS

The S.O.S.™ Head does it all! As a standard, fixed-center, dual-layer crosshead, the S.O.S. head is capable of running single-layer, dual-layer and skin layer applications... and with multiple stripes! And if your process requires an adjustable head, the S.O.S. can easily be converted to an adjustable crosshead with minimal parts. Plus, ease of use and simplicity for the operator allow this head to streamline production, while reducing down-time and scrap.

Design: Fixed Center (can be converted to an adjustable head)

Features: Capable of running single-layer, dual-layer and skin layer applications

Benefits: Reduce production time and waste while increasing productivity and profits

Sizes: 9/32" and up

Striping: Multiple striping options available
