

U Head

T JOETOOLS

The U Head is our very unique crosshead, designed to reduce the costs and headaches of maintaining a large inventory of heads for the many tips & dies used every year. With JoeTools universal U Head, you only have to stock one style of crosshead to work with ALL your tips & dies... delivering exceptional quality results with each production run.

Design: Single Layer, Fixed Center

Features: A unique, universal design that accepts all existing tips and dies

Benefits: Reduces operating costs by stocking one style of crosshead for all the tips and dies used in your extrusion processes

Sizes: 9/32" and up

Striping: Striping options available
